### LANGUAGES

- Portuguese
- English - Intermediate

### TECHNICAL SKILLS

- Python (advanced)
- Django
- JavaScript / jQuery
- HTML5 / CSS / Bootstrap
- PostgreSQL / SQLite
- Git / GitLab / GitHub
- CI/CD (pipelines, build, automated deployment)

### CORE COMPETENCIES

- Experience with Data Privacy & Compliance (LGPD) and Information Security practices.
- Secure Architecture & Information Security
- Backend Systems & REST APIs
- Focus on Performance & Scalability Optimization.
- Experience with CI/CD pipeline & Automation
- Production Environments & High Availability

### Professional Summary

Full Stack Developer with experience in backend systems and REST APIs, focused on building scalable and secure applications. Strong background in data privacy, compliance (LGPD), and information security. Skilled in designing secure architectures and developing high-performance systems in production environments.

### Professional Experience

#### Full Stack Developer - Unicamp (2024 - Present)

Developed and maintained backend systems and REST APIs for institutional process management, with an emphasis on data privacy and information security.

- Developed features for incident management workflows.
- Implemented business rules aligned with LGPD (Brazilian General Data Protection Law, similar to GDPR).
- Built dynamic and responsive user interfaces.
- Optimized database queries, improving system performance and scalability.
- Maintained and continuously enhanced existing systems.
- Designed secure architecture aligned with data privacy and compliance requirements.
- Implemented data governance practices to ensure compliance with LGPD.

### Relevant Projects

#### Privacy System (LGPD)

- Developed backend systems and REST APIs for incident management workflows.
- Implemented solutions focused on compliance with the Brazilian General Data Protection Law (LGPD).

#### Internal Notices System

- Maintained and enhanced the system through continuous improvements.
- Implemented workflows for submission, review, and tracking.

### Education

#### Bachelor's Degree in Computer Science (University of Franca) (2019 - 2023)
